

State Library of Iowa

SFY05 Annual Report - Use of Iowa Communications Network July 2004-June 2005

The State Library continues to rely heavily on the Iowa Communications Network (ICN) for video, data and voice services. The ICN is now the backbone for two State Library web sites, State of Iowa Libraries Online (SILO) and *HealthInfoIowa*, a resource for consumer health information. SILO provides Iowans access to a wide range of resources, including library catalogs, databases, census data, patent information and full-text articles. Librarians use SILO for numerous reasons, including its statewide electronic interlibrary loan system. Many State Library services would not be available without the ICN. Iowans can access census 2000 demographic data and maps as well as current estimates of population, housing, economic, and government characteristics on the State Library's State Data Center web pages. More than 6,000 data tables, demographic profiles, and maps are available to Iowans on the site. New this year is the Iowa Electronic State Documents Repository. "Iowa Publications Online," provides Internet access to over 1,100 state of Iowa documents which have been published electronically. A powerful search engine allows patrons to find documents by title, author, subject, keyword, or year. As more state publications are no longer published in print, this will become a valuable archive of state information for all Iowans.

State Library Use of the ICN video room

The State Library logged 183 hours (3,198 billable hours) on the ICN for workshops, training and meetings. There were 3,051 participants in 87 sessions at 1,629 sites. State Library staff and those who participate in state-sponsored events continue to save tremendously in time and travel costs. Many Iowans, especially those in rural areas, would not be able to participate in these events if extended travel was required.

Cost savings for video room use

In addition to providing services and information to larger audiences, the State Library has realized cost savings from ICN use. The following assumptions and calculations were used in this report:

- If meetings and training sessions were not held over the ICN, all participants would travel to Des Moines as the originating site. Mileage is figured from each remote site to Des Moines.
- At least one participant from each remote site would have traveled to Des Moines.
- Participant counts are based on registration, counts conducted during the sessions, or

estimates.

- Distance calculations are based on shortest distance on a map from remote site to Des Moines.
- Productivity costs calculated for consultant travel to individual sites (the average hourly salary/ benefits [\$28.47/hour] × round trip mileage between sites ÷ driving speed of 55 mph).
- ICN cost for FY2005 was actual ICN charges based on rates afforded the E-rate discounts for the State Library.
- Room charge costs are derived from actual billings when possible.
- Savings = (Productivity + Lodging + Meals + Travel-In) - (ICN Cost + Room Charge).
- Travel-In [participants * distance * \$.29 * 2]
- Travel (Y/N) N means the session would not have been held if not on the ICN.

The attached spread sheet includes:

1. State Library-sponsored programs originating at the State Library.
2. State Library-sponsored programs originating in ICN rooms of other agencies.
3. Programs sponsored by other agencies and attended by State Library staff to save travel expenses, i.e., board meetings, committee meetings.

Based on the above assumptions, the State Library realized \$296,597 in savings in FY05 using the ICN. This includes productivity costs and assumes sessions would be held by having participants coming to Des Moines for the service. System charges from the ICN totaled \$12,573 and individual room charges totaled \$3,989. Total charges for ICN video use, room use and satellite costs in FY05 were \$16,870.

Specific Examples of ICN video room use by the State Library of Iowa

- Public Library Management 1 and 2 courses, required for public librarian certification, were offered four times during the year. 102 students participated. Contact: Sandy Dixon
- The Iowa Library Standards were revised and updated. ICN sessions provided over 200 library staff input into the process. Contact: Gerry Rowland
- An OCLC Task Force was put together to discuss a statewide offer to provide libraries with cataloging tools. The Task Force met often on the ICN to discuss the options.
- Youth Services staff benefit from the ICN. A workshop to promote and plan for the summer library reading program training session had 154 participants at 48 sites. The training session to promote the young adults teen program was held at 47 sites with 162 participants. The Youth Services Advisory Council met four times over the ICN to provide input and support of youth services and programs. Contact: Mary Cameron
- The Center for the Book used the ICN to discuss planning programs for the year's All Iowa Reads book selection. There were 132 participants at 49 sites that attended and received ideas on running a discussion group in their library. The Center for the Book also used the ICN for planning sessions and developing the Letters for Literature program. An Ames, Iowa student won at the national level. Contact: Annette Wetteland.
- Several training sessions held for library staff provided opportunities to improve skills

and to offer better service for their patrons. EBSCOhost and FirstSearch training provided staff knowledge on searching and using these online databases. Nearly 300 library staff attended at 224 different sites. Four separate erate sessions provided library staff information on applying for the universal service program discounts. Contact: Judy Jones

- A special session, Gates Sustainability Seminar 98 sites 136 participants 2 sessions. Contact: Sandy Dixon
- A Public Librarians Role in the Age of Information, 49 sites 160 participants. Part of Gates Training, Information Literacy Contact: Michele Leininger
- Funding Your Library 42 sites 128 participants. Contact: Sandy Dixon
- Gates Computer Security 41 sites, 70 participants Contact: Sandy Dixon

ICN capabilities make it possible, without much effort, for the State Library to take advantage of downlinks provided by the College of DuPage. Six teleconferences sponsored by the State Library in partnership with Bibliographical Center for Research (BCR) and the College of DuPage were: The Role of Teaching in Modern Libraries; Dealing with Difficult People; Library Marketing; Reference Tools for the Information Age; Library Transformation: Library as Place; and Library Hot Topics for Today and Tomorrow. A total of 600 participants attended the sessions at an average 53 sites per downlink.

Several State Library staff served on boards, committees and conference planning teams that held sessions over the ICN, saving the State Library travel expenses and increasing staff productivity. Specifics were town meeting planning, plan of service planning, the standards task force, the OCLC task force, ATAC board, and the library pay equity committee, in addition to other administrative and committee meetings.

Benefits to Iowans

Iowans value the opportunity to attend classes and meetings at local ICN sites. If not for the ICN, many librarians would be unable to pursue continuing education, develop professionally, or become involved in setting the course for the future of libraries.

Thanks to the ICN's videotaping capabilities, people unable to attend an event on a specific day can still "participate" days later, at their convenience. The State Library's videotaped ICN workshops are the most sought after videos in the State Library's collection.

Without the ICN, Iowans would not have access to the State Library's web site. The web site provided Iowans access to Job List, census information, consumer health information, grant resources, and a database of Iowa inventors and patent holders from 1843-1974. State workers, as well as, all Iowans can access commercial online full-text references. Direct reference is supported with the online "Ask a Librarian" service. Iowa Publications Online

Benefits to State Library of Iowa

The ICN increases efficiency by cutting travel time and expenses. Without the ICN, the

State Library would not receive the input it needs to chart new paths, create new programs, or develop new partnerships. Attendance and regional diversity increase with all geographic areas of the state represented. Technology is more easily incorporated into training sessions. Training is provided within critical time frames and guarantees information equity. Without the ICN, many training and workshops would not be possible or practical.

State Library Use of ICN Data Service

ICN Internet services provide the telecommunications backbone for Iowa's electronic library information network (SILO) and for the State Library's online library management system including the State Library's "automated card catalog." During FY05, SILO continued to provide access to hundreds of online reference resources, including FirstSearch, EBSCOhost, and the Iowa Locator, which lists 5 million books owned by Iowa libraries. Libraries used the electronic interlibrary loan service to provide 106,032 transactions this year on SILO, resulting in quicker delivery of materials people needed. Often books, videos, and CD's are in the mail the same day they are requested. SILO, with an average of 13,000 hits a day, also provides the full card catalogs of 25 Iowa libraries. The number of Iowans searching in electronic databases continued to increase. Iowans retrieved nearly 3 million full-text resources from EBSCOhost and over 500,000 searches resulted in FirstSearch.

Because of the ICN, librarians across the state can communicate instantly with each other through electronic mailing lists maintained by State Library staff and moderated by SILO. In most cases, librarians use the mailing lists to track down hard-to-find materials needed by customers and to solve issues that occur in day-to-day activities.

Future

The State Library will continue to offer access to ICN video conferencing through the meeting rooms in the Ola Babcock Miller building. The rooms are available to all state agencies and to library-related groups.

In addition to data, voice and video services, the State Library will continue to rely on the ICN to support SILO and its numerous applications. The ICN remains vital in helping the State Library fulfill its mission to provide statewide access to information for all Iowans.
